# Construction Safety

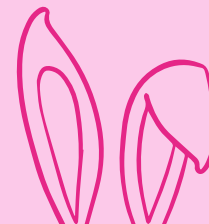

Mid March to Mid April update

- ▣ framing around the roof parapet on the second floor
- ▣ Metal decking install for the roof and second floor - target start is mid March. This will cause loud banging noises, and Halse Martin will advise prior to the start of this work.
- ▣ concrete infill on first floor slab
- ▣ Glulam beam delivery and install

Open date: Spring 2025 Likely this is a move-in date of March so classes start in new rooms after spring break. City occupancy inspection scheduled for January. From here we have technology staff working, furniture etc.

For Questions & Concerns Please contact our District Super Intendent: Neder Dhillon at dhillon\_nesurreyschools.ca
